

VORANKÜNDIGUNG JHV / FOBI 2012

Für die JHV 2012 haben wir wieder eine hochrangige Referentin gewinnen können.

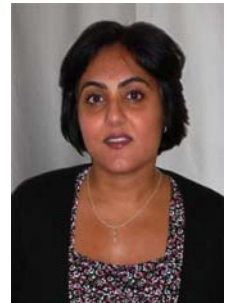

Anju Jaggi qualified from the University of East London in 1992 with a BSc (Hons) Physiotherapy. She started at the RNOHT Stanmore in 1996 as a Senior II and developed an interest in Upper Limb & Peripheral Nerve Injuries. For the last 13 years she has been working closely with senior orthopaedic consultants specialising in the Shoulder & Elbow. The unit is well known nationally and internationally for its work in complex shoulder instability and complex arthroplasty. Over the 13 years Anju has gained expert knowledge within the field of shoulder management in particular the management of muscle patterning instability. She presents both nationally & internationally and has published work on the shoulder. She is an active member of the British Elbow & Shoulder Society (BESS) and is vice president of the European Society of Elbow & Shoulder Rehabilitation (EUSSER).

The course incorporates lectures and practical encouraging clinical reasoning in diagnosis and management of shoulder dysfunction, understanding the role of physiotherapy as well as surgical treatment. Day one will concentrate on the aetiology and management of rotator cuff disease, assessment & making sense of tests. Rotator cuff rehab, the stiff shoulder and the role of arthroplasty in the aging shoulder. The seminar will also focus on the classification and management of shoulder instability, assessment and the role of the kinetic chain, recognizing abnormal muscle patterning. Internal impingement in the throwing athlete. Scapula stability, tape and taking rehab to end stage.

Datum: Sa. 13. Oktober (9.00-17.00 Uhr) und
So. 14. Oktober (9.00 – 16.00 Uhr) 2012

Ort: Physiotherapieschule München Großhadern

Referent: **Anju Jaggi, MSc MCSP, *Clinical Physiotherapy Specialist,*
*Royal National Orthopaedic Hospital Trust (UK)***
